MEMORANDUM

SUBJECT: Final Bioremediation Approval - Naples Truck Stop

FROM: John R. Giedt, Co-Chair  
Region VIII Regional Response Team

TO: Hays, Giswold  
OSC

The Bioremediation Treatment Plan that you developed for the Naples Truck Stop incident in Vernal, Utah, has been reviewed and approved by the State of Utah and the U.S. Department of Interior, in their roles as RRT natural resource trustees.

Based upon my previous review of the treatment plan, and my subsequent review of the trustees' approvals, I am hereby granting you final RRT approval. As such, I am withdrawing my previously granted interim approval, and you may continue the cleanup operations to completion.

However, during your continuing cleanup operations, you are expected to report any incidents or issues that may affect the outcome of this approved action. Any such report is to be documented in subsequent POLREPs, and they will be used by myself, and the RRT natural resource trustees to determine if further review by us may be necessary.

I appreciate your cooperation in this matter. Any constructive comments you might offer how this new process can be improved will be appreciated.
